

# LANDSTAR

## TEMPERATURE CONTROLLED SOLUTIONS

Produce, plants and other temperature sensitive shipments require an industry leader. At Landstar, we understand the requirements of your industries and consistently meet the challenges associated with transporting temperature critical shipments. From fresh produce and flowers to frozen foods.

All shipment temperatures are monitored and trucks are tracked throughout the shipment lifecycle to maintain product stability and integrity.

To achieve a high level of quality assurance, Landstar offers:

- Service Available 24/7/365
- Single Point of Contact
- 24-Hour Temperature Monitoring and Equipment Tracking
- Skilled Team Owner-Operators with a vested interest in getting your shipment delivered safely and on-time

**Contact your Landstar agent for details on Landstar's temperature controlled transportation services.**
